

TDWI Salary, Roles, and Responsibilities Report

ABOUT TDWI

TDWI is your source for in-depth education and research on all things data. For over 20 years, TDWI has been helping data professionals get smarter so the companies they work for can innovate and grow faster. TDWI provides individuals and teams with comprehensive business and technical education and research that allow them to acquire the knowledge and skills they need, when and where they need them.

TDWI advances the art and science of realizing business value from data by providing an objective forum where industry experts, solution providers, and practitioners can explore and enhance data competencies, practices, and technologies.

TDWI offers conferences, topical seminars, onsite education, a worldwide membership program, business intelligence certification, live webinars, resource-filled publications, industry news, an in-depth research program, and a comprehensive website at tdwi.org.

PURPOSE AND METHODS

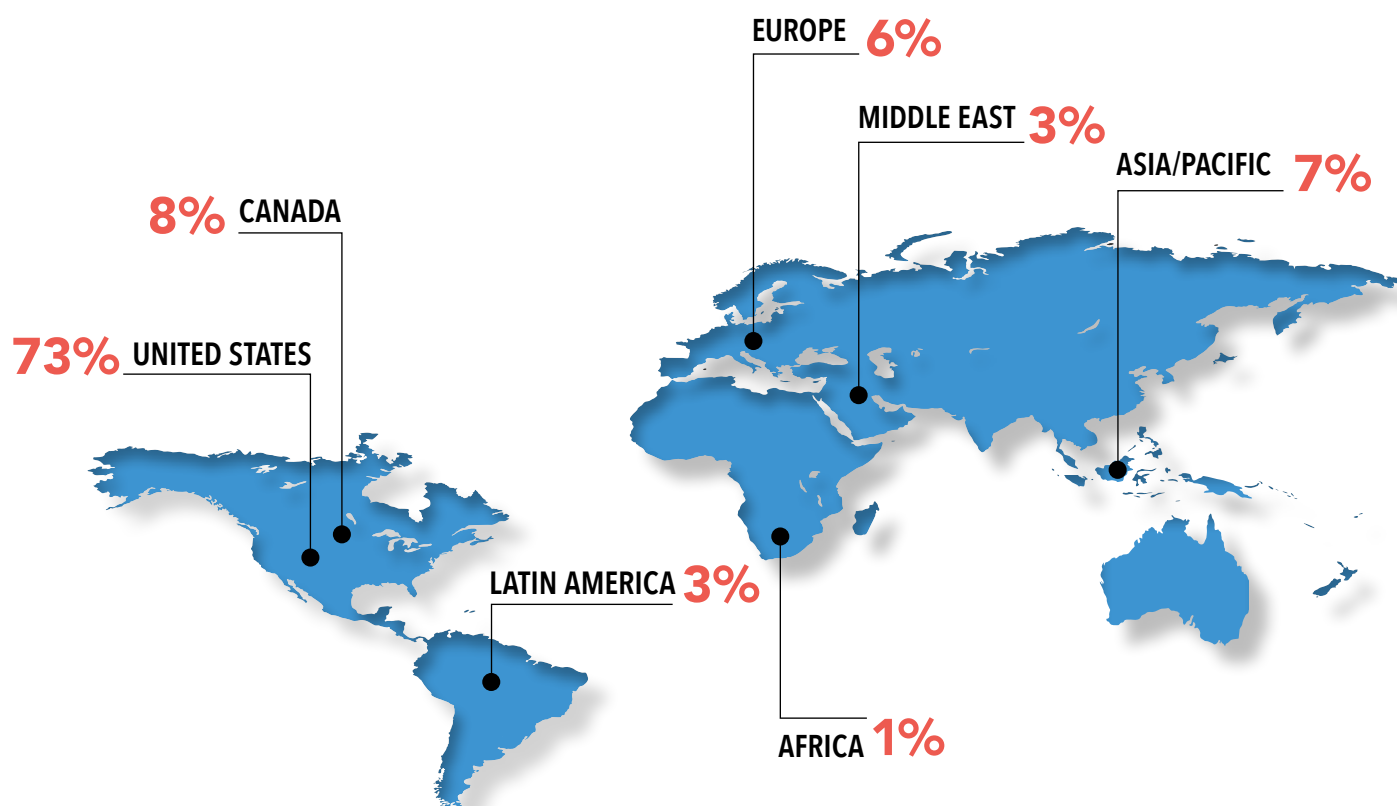

This report is dedicated to the people and teams who built and maintained data management and analytics (DM/A) solutions during the 2022 calendar year. We use the term “DM/A” to refer to both business intelligence and data warehousing initiatives, plus related disciplines for analytics and data integration. The term “DM/A professionals” refers to the individuals who deliver these initiatives. The term “organization” refers to corporations (whether for-profit or nonprofit), as well as government agencies, healthcare providers, and educational institutions. Specifically, this report quantifies and interprets the compensation, roles, and experience of individual DM/A professionals.

The data for this report comes from the responses of 203 qualified data and analytics professionals in the U.S. and Canada who responded to a TDWI survey conducted in the latter half of 2022. Due to the volatility of currency exchange rates and the variation of IT personnel market value internationally, we excluded responses from worldwide DM/A professionals from our compensation data; to enable accurate comparisons, we show all amounts in U.S. dollars.

Qualified respondents are full-time IT professionals, consultants, systems integrators, and business sponsors or users. We excluded responses from vendor representatives in sales, marketing, and development; professors and students; and part-time employees. We also removed outlier salary data for respondents reporting salaries below \$30,000 and above \$350,000. Only respondents who answered a question are included in the results. Multiple-choice questions, decimal truncation, and rounding account for totals that do not equal 100 percent.

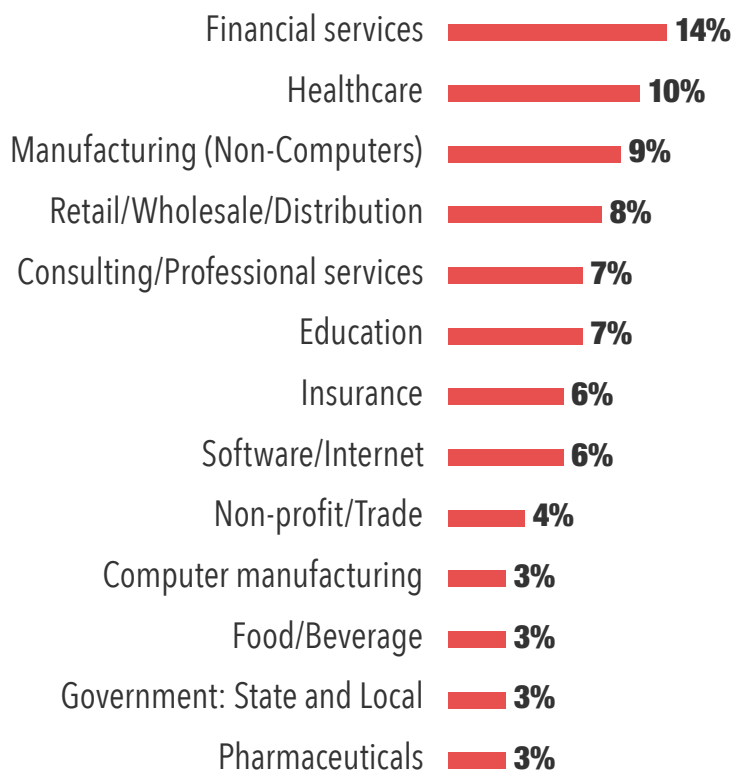

DEMOGRAPHICS

PROFILE BY LOCATION (FOR ALL RESPONDENTS)

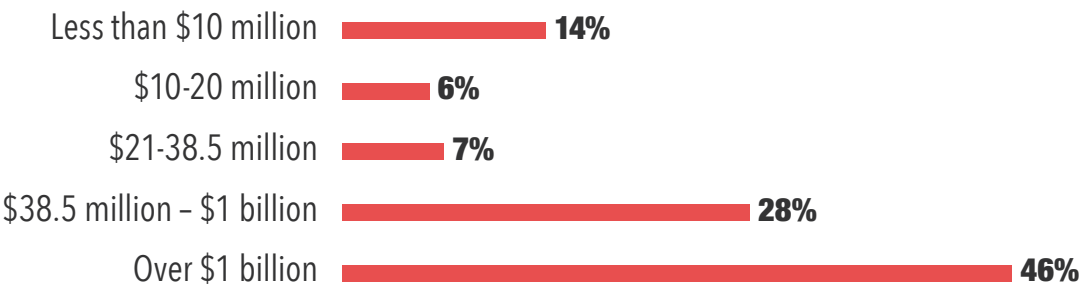

TOP INDUSTRY REPRESENTATION

Over one-half (55%) of responses come from just the six top segments.

ORGANIZATIONAL REVENUES

As usual, there is a mix of company sizes in terms of revenue.

DM/A MATURITY

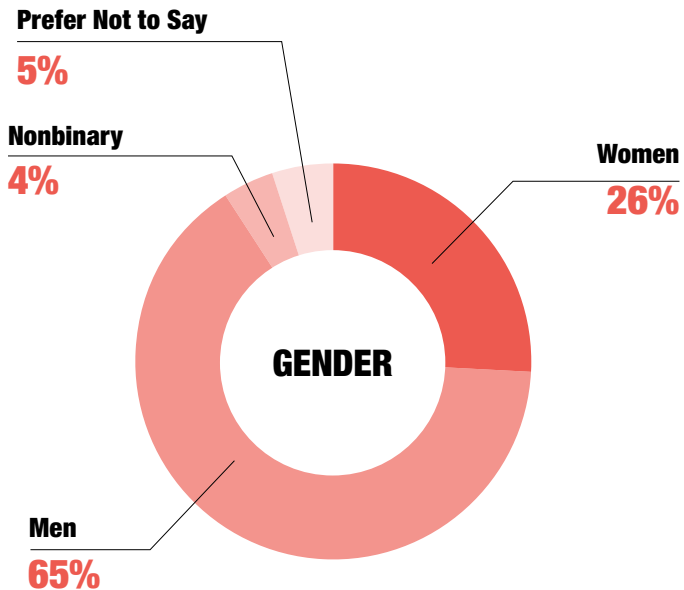

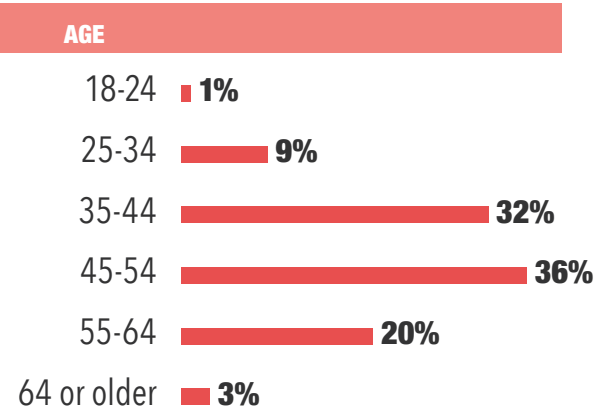

This year's respondents were not as advanced as in previous years.

	2018	2019	2020	2021	2022
Beginner We're getting serious about BI for the first time	19%	19%	20%	14%	22%
Intermediate We have deployed a DW and are looking to add more value	43%	48%	47%	52%	54%
Advanced We manage a relatively mature BI environment that delivers significant business value	38%	33%	33%	34%	24%

PROFILE BY AGE AND GENDER

This year’s survey introduced new options for gender to reflect an increasingly diverse workforce.

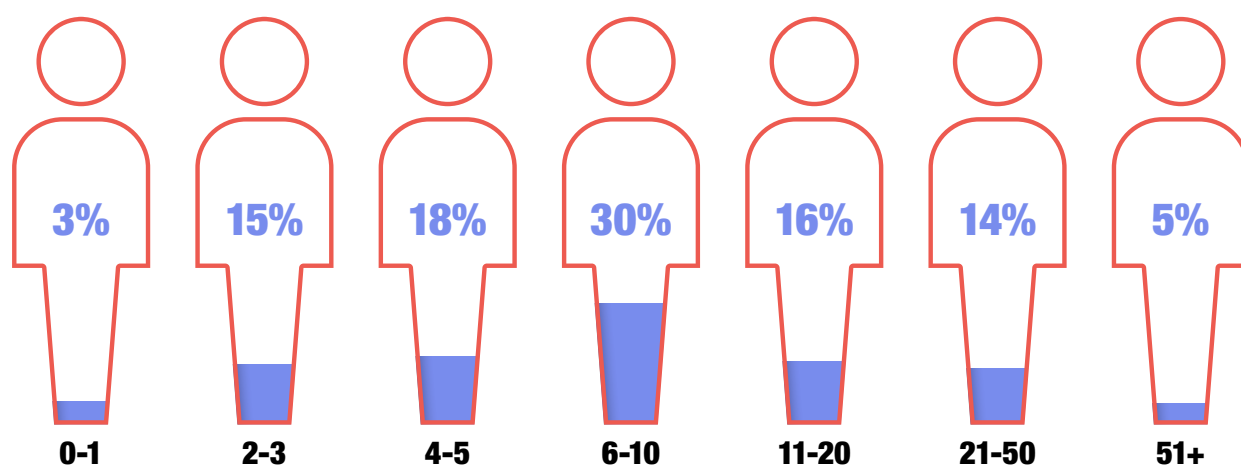

PROFILE BY WORK STATUS

The median team size this year is 6-10, up from previous years.

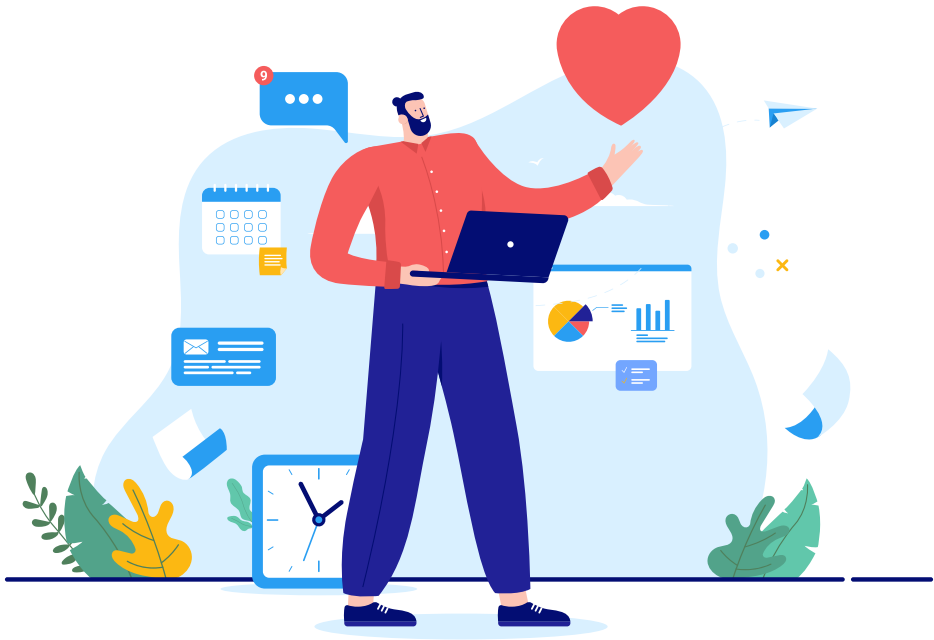

HOW MANY FULL-TIME STAFF MEMBERS ON YOUR TEAM ARE DEVOTED TO DM/A TASKS?

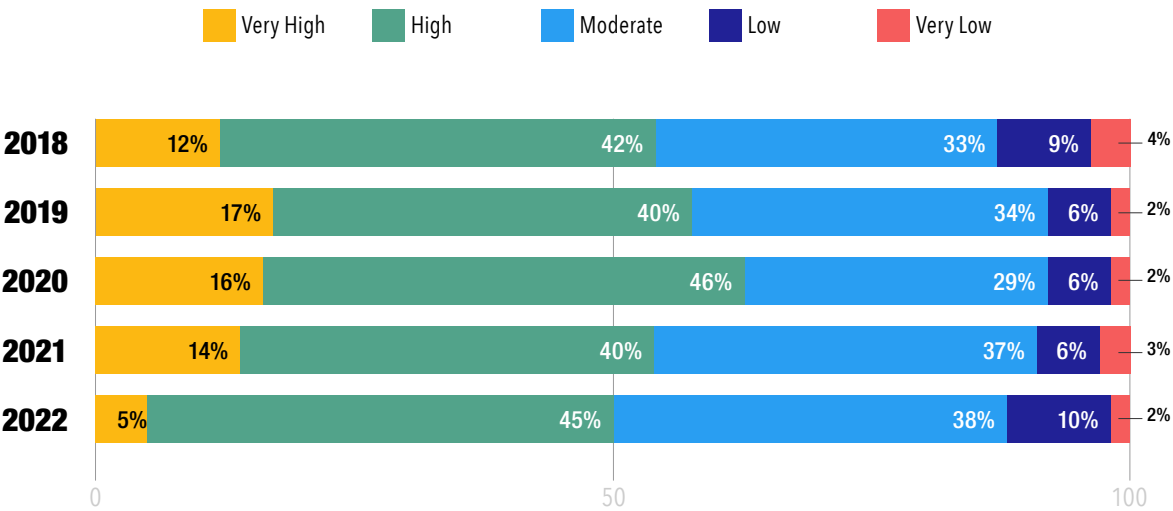

JOB SATISFACTION

Fewer survey respondents reported being very satisfied with their current positions in 2022.

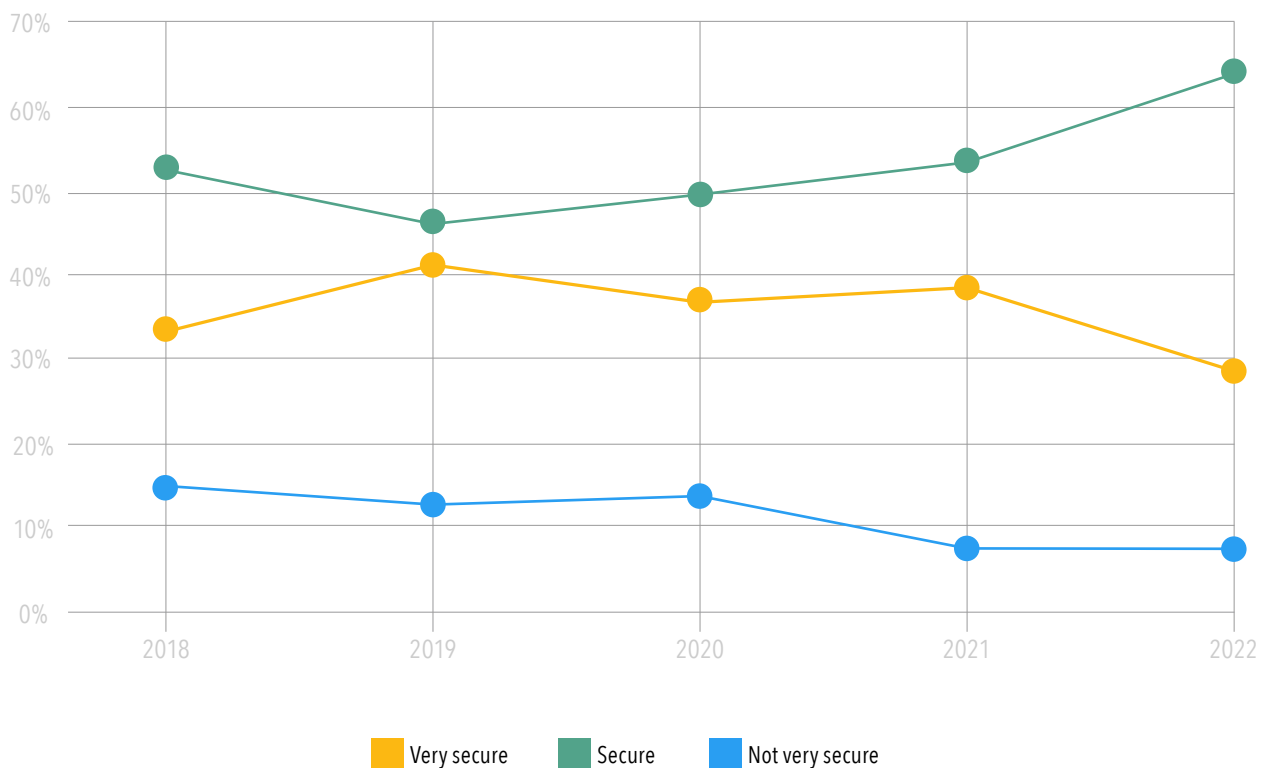

HOW WOULD YOU RATE YOUR SATISFACTION IN YOUR CURRENT POSITION?

JOB SECURITY

Those reporting feeling “very secure” dropped by 10 percentage points.

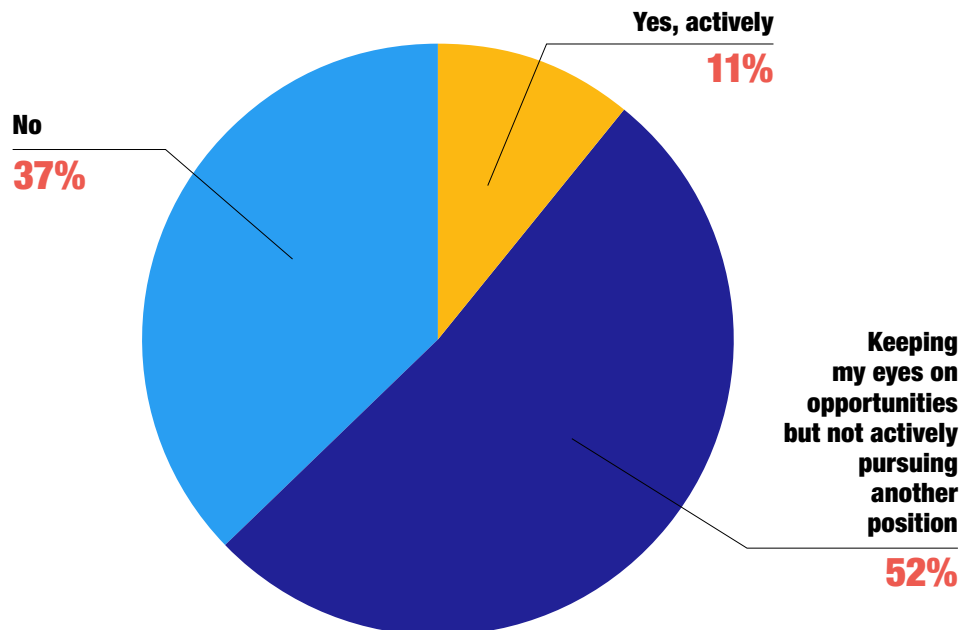

**HOW SECURE DO YOU FEEL
IN YOUR JOB?**

The majority of DM/A professionals keep their eyes out for new opportunities.

ARE YOU CURRENTLY LOOKING FOR ANOTHER POSITION?

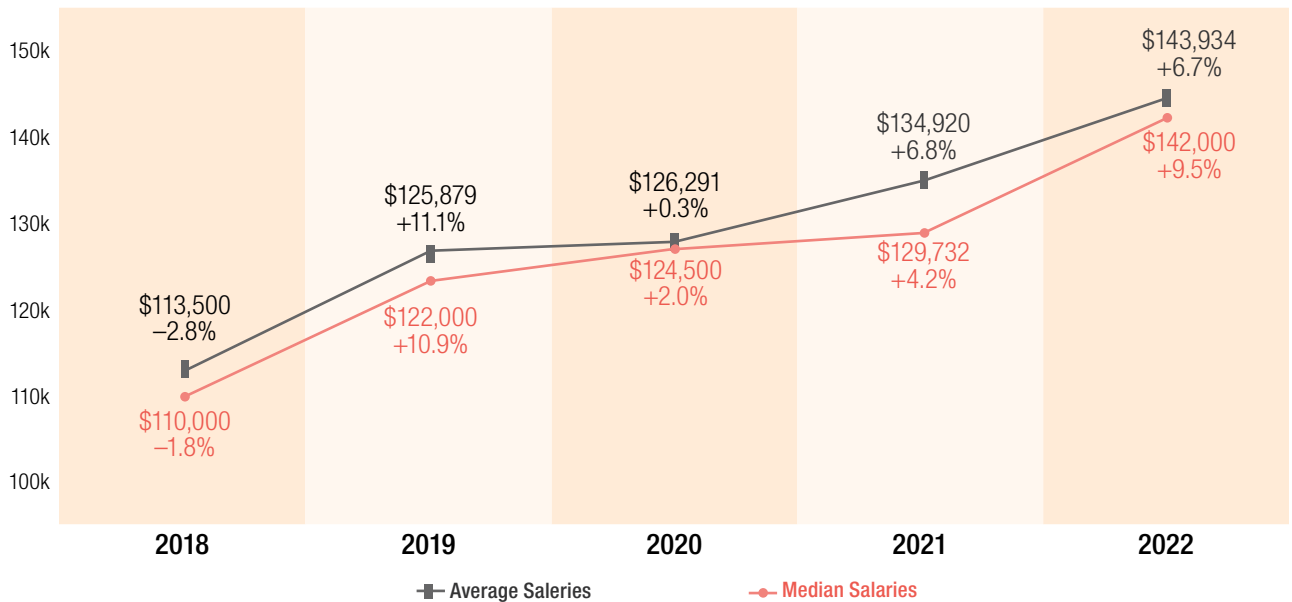

COMPENSATION

SALARY TRENDS

Median salaries rose 9.5% from 2022.

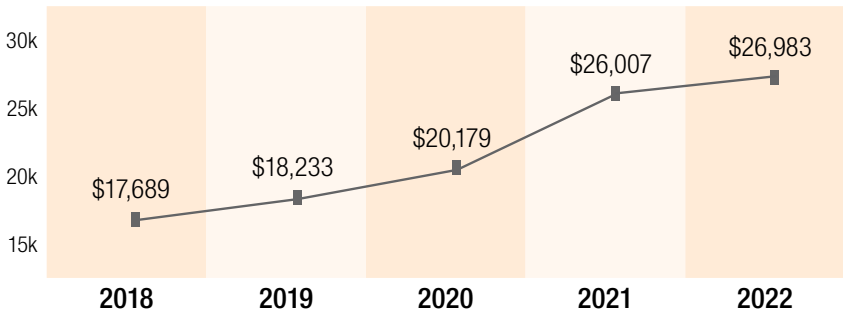

AVERAGE AND MEDIAN SALARIES—FULL TIME EMPLOYEES AND CONTRACTORS

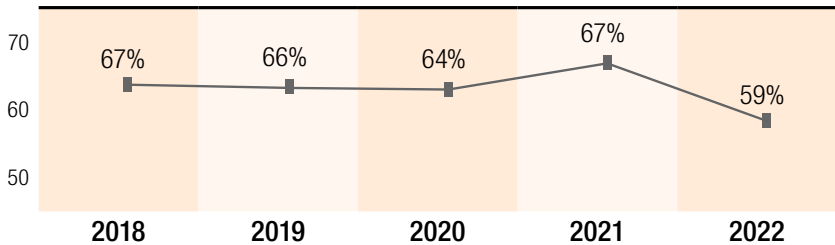

BONUS TRENDS

Bonuses inched upward in 2022, averaging \$26,983, up 3.8% from 2021, but fewer employees received them.

AVERAGE BONUSES

RESPONDENTS RECEIVING BONUSES

TOP SALARIES AND BONUSES BY KEY ROLES
